Dept. of Biotechnology
MSB, Bhubaneswar

Number of students attended: 50

Venue: Computer Lab, MITS School of Biotechnology.

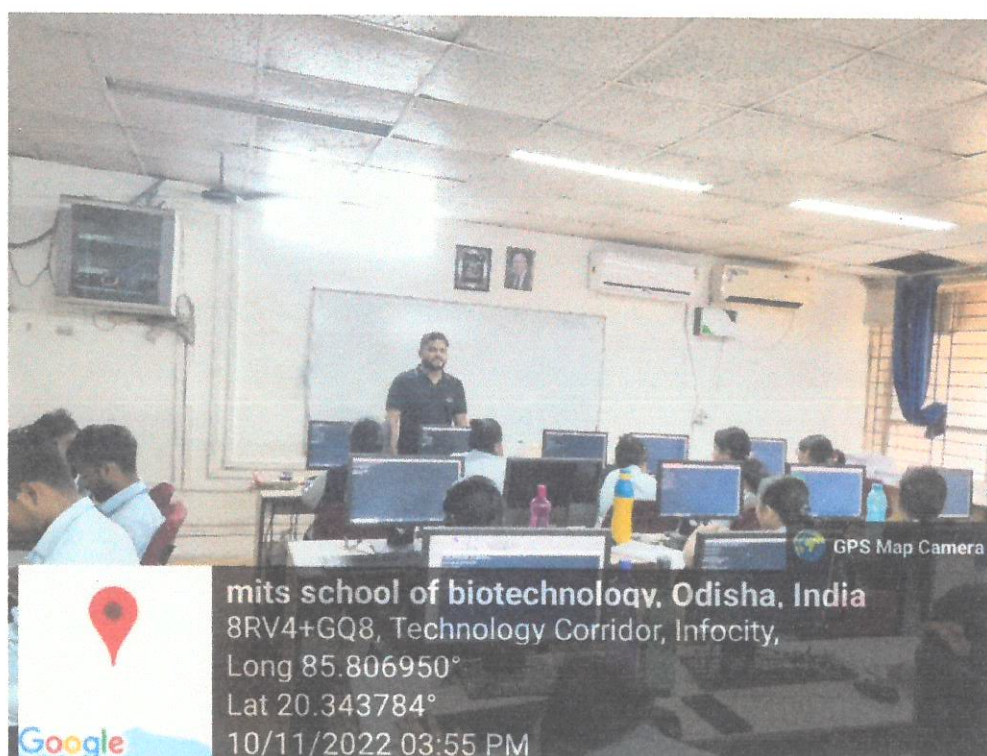

A One day training program on Web Designing was conducted on 09-11-2022. The programme was inaugurated by our director Prof. G. K. Panda who expressed his gratitude to the speaker. The resource person talked briefly about the fundamentals of Web Page designing. Participants were given hands-on computer skills on Web designing and trained by the end of the session. The session ended with vote of thanks by Training and Placement Officer

Objective:

1. To teach students the skills and knowledge necessary to create visually appealing and functional websites.
2. Learning various programming languages, such as HTML, CSS, and JavaScript, as well as mastering design principles, user experience (UX) design, and web development tools.
3. Enable students to design and build websites that are user-friendly, responsive, and aesthetically pleasing.

Learning Outcomes:

1. Grasping the fundamentals of HTML, CSS, JavaScript, and other relevant web technologies is essential for creating functional and visually appealing websites.
2. Learning how to design websites that are responsive, ensuring they adapt well to various devices and screen sizes, enhancing user experience.
3. Developing skills to create intuitive and aesthetically pleasing interfaces, focusing on user-centered design principles for better user experience.

PROGRAM REPORT

Name of the Event: a Two days programon “**Role of Artificial Intelligence(AI)**”

Date: 23-02-2022 to 24-02-2022

Resource Person: Rupambika Sahoo
System Analyst
TCS. BBSR
Contact :rupambikasahoo@gmail.com

Coordinator: Prof. Siddhartha Parida
Assoc. Professor
Dept. of Biotechnology
MSB, Bhubaneswar

Number of students attended:59

Venue:Computer Lab, MITS School of Biotechnology.

A two days programon **Role of Artificial Intelligence(AI)** was conducted from **23-02-2022** to **24-02-2022**. The programme was inaugurated by our director Prof. G. K. Panda who expressed his gratitude to the speaker. The resource person talked briefly about the fundamentals of AI concepts , machine learning , algorithms and data analysis. Participants were able learn how to apply AI techniques in solving real -world problems The session ended with vote of thanks by Training and Placement Officer

Objectives:

- 1 To provide a comprehensive understanding of the basic concepts, history, and types of artificial intelligence, including machine learning and deep learning
- 2 To explore various applications of AI in different fields such as healthcare, finance, marketing, robotics, and more, understanding how AI technologies are transforming industries.
- 3 To discuss the ethical implications and challenges associated with AI, including issues related to bias, privacy, transparency, and responsible AI development.

Learning Outcomes:

1. Participants will have a deep understanding of AI concepts, technologies, and their applications across various domains.
2. Participants will gain practical skills in AI programming, data pre-processing, machine learning model development, and deployment, enhancing their technical expertise in AI-related tasks.
3. Learners will develop critical thinking skills to analyze the societal impact and ethical implications of AI technologies, enabling them to make informed judgments about AI-related issues

A One Day ICT programme on **How to stay cyber safe in Covid times** was conducted on 09-02-2021. The programme was addressed by our director Prof. G. K. Panda who expressed his gratitude to the speaker. The resource person talked Data Security, Preventing online fraud, phishing attacks, and scams helps in maintaining financial security, especially during COVID period.

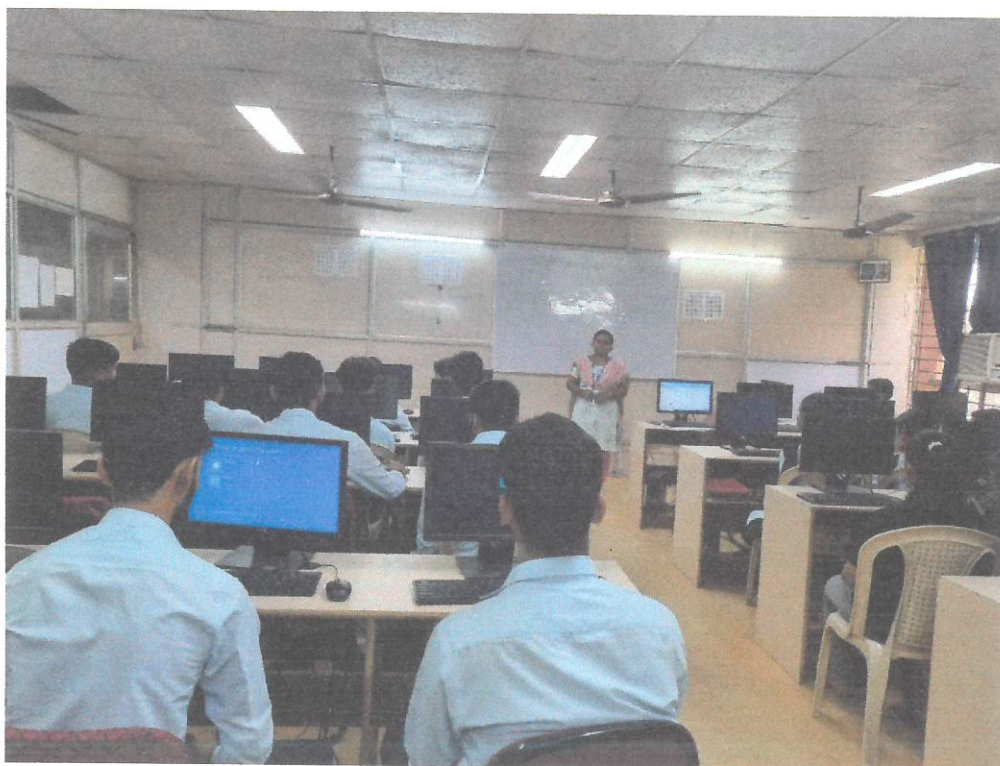

Objectives :

1. To educate participants about the heightened cyber threats during the pandemic
2. To empower them with knowledge and skills to protect their digital assets, personal information, and online activities.
3. To raise awareness about cybersecurity best practices in the context of increased online interactions, remote work, and digital communication during the COVID-19 pandemic.

Learning Outcomes:

1. Participants gained a deep understanding of the various cyber threats prevalent during COVID-19 and become aware of potential risks associated with online activities.
2. Participants acquired knowledge about cyber security basics, including phishing, malware, social engineering, secure communication, and safe online practices.

3. Participants learned practical techniques to secure their devices, networks, and online accounts, including the implementation of firewalls, VPNs, and multi-factor authentication methods.

A One day ICT programme on **Coding for Beginners** was conducted **03-12-2019**. The programme was addressed by our director Prof. G. K. Panda who expressed his gratitude to the speaker The resource person talked briefly about the fundamentals of programming approaches by giving knowledge about POP (Procedural oriented Programming)/ SOP(Structure Oriented Programming) and OOP (Object oriented Programming). The session ended with vote of thanks by Training and Placement Officer

Objectives:

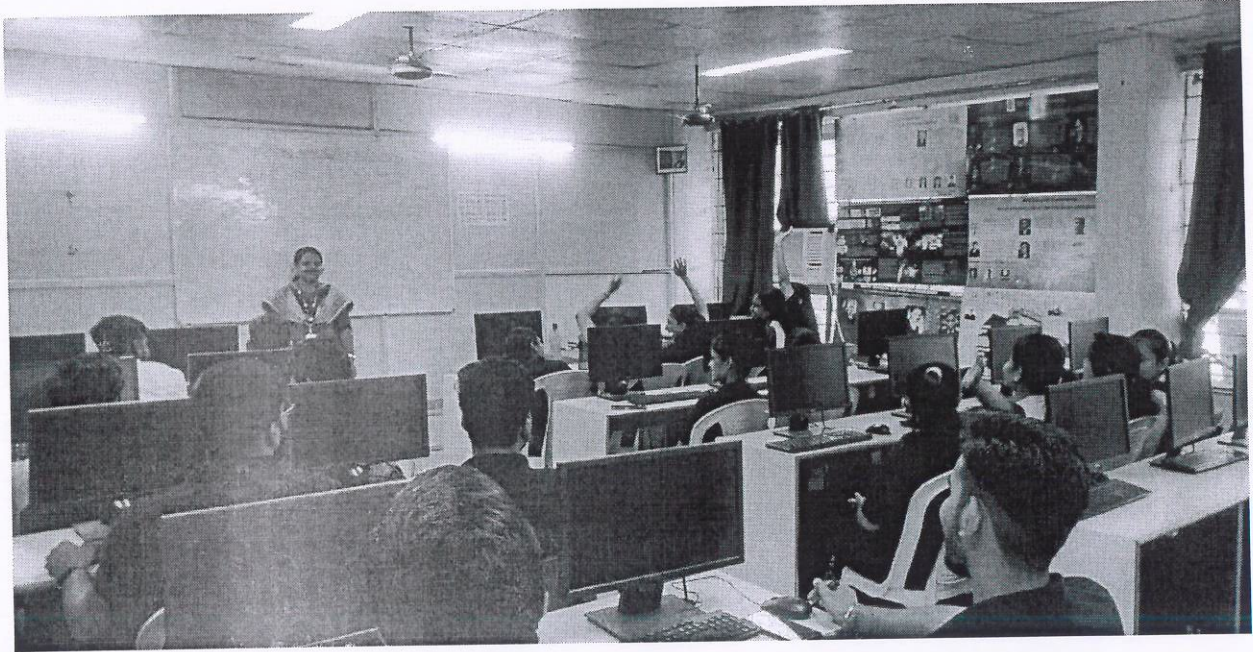

1. Introduce participants to fundamental coding concepts, such as variables, data types, loops, and conditional statements, providing a solid foundation for understanding programming principles.
2. Offer hands-on practice with beginner-friendly coding languages such as Python, JavaScript, or HTML/CSS, enabling participants to gain practical experience in writing and executing basic code.
3. Familiarize participants with basic algorithmic thinking and problem-solving techniques, encouraging them to approach coding challenges with structured and logical thought processes

Learning Outcomes:

1. Participants will demonstrate proficiency in writing and executing basic code, including the use of variables, data types, loops, and conditional statements in the selected programming language.

Pg 1 of 2

2. Participants will have a comprehensive understanding of fundamental programming concepts, enabling them to comprehend and apply more complex coding principles in the future.
3. Participants will develop problem-solving and logical thinking skills, allowing them to analyze coding challenges systematically and devise effective solutions using structured and algorithmic approaches.
