CIRCULAR

SUBJECT: NON- USAGE OF SINGLE USE PLASTIC IN THE COLLEGE CAMPUS

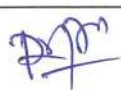

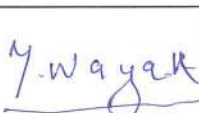

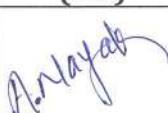

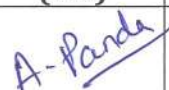

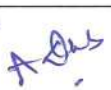

All teaching and non-teaching staff, along with students, are hereby informed that our college has implemented a green policy, leading to the prohibition of all single-use plastics within the campus and its surroundings. Our goal is to promote the use of reusable bags crafted from materials such as fabric, jute, canvas, bamboo, and craft paper.

It is our collective responsibility to combat the usage of plastic within the college premises, recognizing its status as a significant environmental pollutant. Despite the widespread incorporation of plastic into our daily lives, it remains one of the most hazardous pollutants.

We urge all staff and students to opt for reusable water bottles instead of plastic ones. Any individual, whether student or staff, discovered using plastic materials within the campus will be subjected to disciplinary measures. The Administrative Officer is directed to take appropriate action in response to these guidelines.

CIRCULAR

SUBJECT: NO ENTRY OF AUTOMOBILES INSIDE THE COLLEGE CAMPUS

All staff and students are hereby notified that, as a component of our green policy initiative aimed at mitigating pollution, the entry of vehicles during college hours into the campus is now restricted. Such activities are expressly prohibited. Any student, staff, or external individual found parking their vehicle within the campus premises will be subject to disciplinary measures. The Administrative Officer is directed to promptly address and take the required actions regarding this matter.

CIRCULAR

SUBJECT: USE OF SEPARATE DUSTBINS FOR DEGRADABLE AND NON-DEGRADABLE WASTES

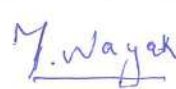

All staff and students are hereby notified that, as part of our continual dedication to environmental sustainability and the upkeep of a pristine, eco-friendly campus, we are delighted to introduce a thorough solid waste management initiative at our college. Through the incorporation of various strategies, our goal is to diminish our environmental impact, advocate for responsible waste management, and foster a cleaner and healthier campus environment for all. Therefore, everyone is instructed to deposit biodegradable and non-biodegradable waste in designated bins (according to labelling) positioned throughout the college premises.
